English - Intermediate (in progress)

Belarussian, Russian - Native

ABOUT ME

Qualified and professional front-end developer with experience in creating SPA using React (JS/TS), Redux, HTML and CSS.

Now I am improving my skills in this direction and expanding them with new technologies. Planning to study Node.js, because in future I see myself as a Full-stack developer.

My free time is dedicated to Codewars, programming tutorials and boosting my English.

Ready to consider a project work and full-time employment in a creative company with up-to-date tasks and collaborative team.

Open to your suggestions.
